A Report on Alumni Guest Lecture By Dr. Swati Jain on

Dentistry Not on Cross-Roads: The Way Ahead

General

An Alumni Guest Lecture was organised in Kalpana Chawla Auditorium at I.T.S dental college on Wednesday, 16th November 2022. A circular dated 12.11.2022 was published for the lecture.

Objective

The objective of the lecture was to provide an overview on the journey of a person who chooses dentistry as a path of career.

About the Speaker

Dr. Swati Jain is an Alumni of this college and has done her Bachelors of Dental Surgery from this college and belongs to the batch of BDS 2003-08. She is a Consultant at Mobile Dental Clinic Project National Health Mission Maulana Azad Institute of Dental Sciences.

Attendees

The following is the summary of attendees of the lecture:

- a) Total students who attended the program: 65 (Interns – 65)
- b) Total faculty who attended the program: 6

Lecture content

Dr. Swati Jain enlightened the audience about dynamic opportunities available in the field of dentistry which one can avail to make a successful and satisfying career in the field of dental public health and role of dental health professionals in the field of Dentistry.

She emphasised that dentistry is not just about the 32 teeth as everyone thinks, but also the associated surrounding and the general health impacts it has. She explained about the vast diversity of the topic.

Outcome

“Dentistry is not just a simple field about teeth, but is a path to a whole new world of success”. This message was delivered and was understood by every student in the lecture. They saw the bigger picture dentistry holds and how they can mould themselves to fit into this picture. They were motivated to find their part of interest in this field and to capture the opportunities available to them.

Conclusion

The path of career in the field of Dentistry is a mixed journey of ups and downs, but ends up with the ultimate goal of achieving patient healthcare and satisfaction giving the ultimate achievement of success.

REPORT OF ALUMNI MEET 2022

To take a walk down the corridors of nostalgia, the alumni meet, 2022, was celebrated on 11th September, 2022. This was the alumnus meet celebrated outside the campus at the Monarch, Indirapuram Habitat Centre and a Brain child of Vice Chairman Sir, Mr. Arpit Chadha encouraged by our chairman sir, Dr. R.P. Chadha. The event would not have been possible without the support of Secretary Mr. B.K. Arora, Director Admin Mr. Vijay Sharma and other management members. More than 200 Alumni and their family members ranging across various batches from various parts of the country graced the occasion. Speaking on the occasion, the Director PG studies, Dr. Shrinath Thakur and the principal, Dr. Devi Charan Shetty underlined and praised the achievements of alumni of I.T.S Dental College in all walks/ spheres of life. They felt that it was matter of great pride for I.T.S that its alumni are holding positions of responsibility in various Government organizations, PSUs, Private sector, Academic Institutions. Many of them are successful dentists providing jobs to others as well and called for greater Alumni Participation. They praised their contribution towards the growth of their Alma mater and emphasized the need for further strengthening the linkage between the alumni and the current students. It was followed by Felicitation of the distinguished Alumnus students and constitution of the alumni association.

The highlight of the event was the DJ Jam session. Everyone danced to their favourite mixes. The evening ended with a sumptuous dinner with the hope of meeting again next year. The event was coordinated by Dr. Payal Sharma, Alumni Coordinator, Professor & Head in Department Orthodontics Public Health Dentistry under the able guidance of Director Dr. Shrinath Thakur and Principal Dr. D.C. Shetty.

A Report on Alumni Guest Lecture By Dr. Anchal Srivastava on

BDS: The Road Ahead

General

An Alumni Guest Lecture was organised in Kalpana Chawla Auditorium at I.T.S dental college on Tuesday, 26th August 2022.

Objective

The objective of the lecture was to provide an overview on the journey of a person who chooses dentistry as a path of career.

About the Speaker

Dr. Anchal Srivastava is an Alumni of this college and has done his Bachelors of Dental Surgery from this college. He belongs to the batch of BDS 2003-09.

Attendees

The following is the summary of attendees of the lecture:

- a) Total students who attended the program: 100 (Interns – 100, BDS Final year- 50)
- b) Total faculty who attended the program: 8

Lecture content

Dr. Anchal Srivastava focussed primarily on the importance of understanding clinical dentistry. He delivered a brief overview of the successful path led by it. He engaged the students in a discussion to explain the important role of a dentist in hand assessment and rehabilitation. He emphasised that assessing hand in various pathological conditions is crucial. He made the students realise the importance of clinical assessment and using clinical tools. The students were extremely interested and enquired about different assessment approaches in cases of dental procedures.

Dr. Devicharan Shetty
Principal
I.T.S Centre for Dental Studies & Research
Delhi-Meerut Road, Muradnagar
Ghaziabad-201206

Outcome

The Lecture layed an emphasis on how and what a person can pursue after their BDS and the importance of doing it. Specialisation in a field after BDS is a must these days and how it benefits the career of an individual. Dr. Anchal Srivastava was able to motivate the students to explore this field and come up with the positiveness and advantages dentistry provides.

Conclusion

BDS is a long journey during which, it induces and brings out the best of a person and moulds them to become a successful doctor, and thereby giving a chance to become someone better by helping them bring out smiles on millions of faces.

A Report on Alumni Guest Lecture By Dr. Pulkit Thakur on

Focus and Capture

General

An Alumni Guest Lecture was organised in Kalpana Chawla Auditorium at I.T.S dental college on Tuesday, 6th July 2022.

Objective

The objective of the lecture was to provide an overview of importance of photographic records in the field of dentistry.

About the Speaker

Dr. Pulkit Thakur is an Alumni of this college having done his Bachelors in Dental Surgery and Masters in Speciality of Prosthodontics, Crown and Bridge from this Institute. He also holds a Diploma in Dental Photography from University of Birmingham, London.

Attendees

The following is the summary of attendees of the lecture:

- a) Total students who attended the program: 80 (Interns – 80)
- b) Total faculty who attended the program: 9

Lecture content

Dr. Pulkit Thakur started his talk by emphasizing the importance of maintaining photographic records and its importance in marketing. In this day and age of digitization and social media, photography is a relatable staple for the young generation, thus the topic becomes naturally relatable to the young minds. He elaborated on the technical aspects of digital photography. Dr. Pulkit also talked about the role his alma mater played and how the institute enriched hi with knowledge and skills paving the way for success in his career.

Outcome

The lecture enlightened the students about a key topic and how photographic records help in diagnosing patients. Following the lecture, the extensive discussion between undergraduates and Dr. Pulkit about the various possibilities in the field which really benefited the target audience. Dr. Pulkit Thakur was able to motivate the students to develop a habit of keeping records of a patient for future references.

Conclusion

Focus, Capture and Develop. A photographic record helps in keeping the normal appearance of the patient intact at the end of the treatment, therefore keeping photographic records is one of the most important aspect in dentistry.

A Report on Alumni Guest Lecture By Dr. Vasudha Bhasin on

Practice management and Scope of Periodontology in Clinical Practice

General

An Alumni Guest Lecture was organised in Kalpana Chawla Auditorium at I.T.S dental college on Thursday, 23rd February 2023. A circular dated 20.02.2023 was published for the lecture.

Objective

The objective of the lecture was to provide an overview on the current trends and the future scope of the field periodontology.

About the Speaker

Dr. Vasudha Bhasin completed her Masters in Periodontology and Oral Implantology (MDS 2014-17) from ITS dental college, Ghaziabad. She has her own clinical practice and is visiting consultant at various hospitals.

Attendees

The following is the summary of attendees of the lecture:

- a) Total students who attended the program: 65 (Interns – 65)
- b) Total faculty who attended the program: 9

Lecture content

Dr. Vasudha Bhasin during her talk discussed the different treatment modalities in the ever evolving field of periodontology. With special focus on the young mids, she discussed the importance of periodontal practice management in day to day dental practice. She showed the versatility this field holds in the ocean of dentistry. She also mentioned about the newer changes taking place in it. She guided the audience and gave a truly knowledgeable experience for all the students.

Outcome

The lecture ended up explaining about the various multistep treatments involved in the field of periodontology and how it helps in achieving the ultimate goal of a patient satisfaction. Dr. Vasudha Bhasin was able to share the core knowledge about this field and encouraged the students to develop an interest in the field of periodontology.

Conclusion

A periodontist is a dentist with a specialty who deals with not just the teeth but also the structures around it and thereby holds the important ingredient for a dental practitioner and is one of the most growing fields.

A Report on Alumni Guest Lecture By Dr. Nupur Khetan on

Use of Botox in Facial Esthetics

General

An Alumni Guest Lecture was organised in Kalpana Chawla Auditorium at I.T.S dental college on Tuesday, 10th January 2023. A circular dated 04.01.2023 was published for the lecture.

Objective

The objective of the lecture was to provide an overview on the growing use of Botox in the field of facial esthetics.

About the Speaker

Dr. Nupur Khetan is an alumnus of the ITS dental college, having done her Masters in the speciality of Prosthodontics, Crown and Bridge from this institute. She had completed comprehensive certified course of Botox and Dermal Fillers, Threads and PRP from Aesthetics Institute of India in affiliation with University of Messina, Europe. She got the fellowship in Aesthetic dentistry (FAD) by University of Greifswald, Germany.

Attendees

The following is the summary of attendees of the lecture:

- a) Total students who attended the program: 65 (Interns – 65)
- b) Total faculty who attended the program: 10

Lecture content

Dr. Nupur Khetan during her talk, discussed different treatment modalities in facial aesthetics in the ever-evolving field of dentistry. She explained about various methodologies of botox applications. She also emphasized about its versatile nature and mechanism of action on the muscles its injected into and how it helps in the treatment of various pathologies. She explained about the researches taking place in this field of interest.

Outcome

The students understood that botox is a chemical which is used not just in esthetic concerns, but also plays a major role in the various treatment plans in dentistry. They were motivated by the speaker and were interested to know more about the concept of using it and how it is changing lives in today's day.

Conclusion

The advancing front in the use of toxins is an emerging science for the beautification of a face in the field of dentistry and is going to bring a whole new boon to the field.
