**Examination, Feb.-2022**

**PERIODONTOLOGY**

**(BDS-015) (N)**

*Time : Three Hours ] [Maximum Marks : 70*

**Note :** (i) Attempt **all** questions with diagrams wherever necessary.

(ii) Use separate copy for **Part-A** and **Part-B.**

**Part - A**

1. Define Dental Plaque. Write in detail the formation of Dental Plaque. 10
2. Define Periodontal Ligament. Describe about Principle fibres and its functions. 10

10  
**P.T.O.**

3. Write short notes on:  $5 \times 3 = 15$

- (a) Cemento enamel junction
- (b) Osseous Craters
- (c) Polymerize Chain Reaction (PCR)

**Part - B**

1. Write in detail etiology, clinical features of chronic periodontitis. Add a note on treatment of chronic periodontitis. 10
2. Define and classify periodontal flaps. Write a note on modified widman flap. 10
3. Write short notes on:  $5 \times 3 = 15$ 
  - (a) Interdental oral hygiene aids.
  - (b) Guided tissue regeneration (GTR)
  - (c) Treatment of Grade II furcation involvement.

*Time : Three Hours ]*

*[Maximum Marks : 70*

**Note :** (i) Attempt **all** questions with diagrams wherever necessary.

(ii) Use separate copy for **Part-A** and **Part-B**

**Part-A**

1. Define and classify dental plaque. Discuss in detail composition and formation of Plaque and Write a note on specific and non-specific Plaque Hypothesis. 10

**P.T.O.**

2. Describe in detail the method of collection, composition and functions of gingival crevicular fluid (GCF). 10
3. Write short notes on:  $5 \times 3 = 15$
- (i) Primary Herpetic Gingivostomatitis.
  - (ii) Diabetes and Periodontium.
  - (iii) Causes and Management of Tooth Mobility.

#### **Part-B**

4. Define and classify Trauma from occlusion. Write in detail stages, clinical and radiographic features of Trauma from occlusion. 10
5. Define and classify furcation involvements. Enumerate the management of Grade II Furcation involvement. 10

5149(N)/2

6. Write short notes on:  $5 \times 3 = 15$

- (i) Interdental Aids
- (ii) Bone Grafts
- (iii) Osseointegration

*Time : Three Hours ] [Maximum Marks : 70*

- Note :** (i) Attempt **all** questions with diagrams wherever necessary.
- (ii) Use separate copy for **Part-A** and **Part-B**.

**PART-A**

1. What is Biofilm. Discuss the nature and properties of biofilm. 10
2. What is furcation involvement. Discuss its classification and evaluate the currently used measures for its treatment. 10

**P.T.O.**

3. Write short notes on the following : 5×3
- (a) Histology of cementum.
  - (b) Trauma from occlusion.
  - (c) Antibiotics in periodontology.

**PART-B**

1. What is periodontal pocket. Discuss the criteria for selecting the periodontal surgical methods used for managing periodontal pocket. 10
2. Discuss pathogenesis and features of various periodontal osseous defects and write about their management. 10
3. Write short notes on : 5×3
  - (a) Implant related complications.
  - (b) Periodontal manifestations of AIDS.
  - (c) Management of Interproximal embrasures.

**Note :** (i) Attempt all questions with diagrams wherever necessary.

(ii) Use separate copy for **Part-A** and **Part-B**.

**Part-A**

1. Define and classify trauma from Occlusion. Describe in detail its role in periodontal diseases and its management. 10
2. Define and classify periodontal pockets. Describe in detail the pathogenesis and root surface changes of periodontal pockets. 10
3. Write short notes on :
  - (a) Acute necrotizing ulcerative gingivitis 5×3
  - (b) Cementum
  - (c) Composition of dental plaque.

5149(N)

P.T.O.

(2)

**Part-B**

4. Classify gingival recession. Describe in detail treatment of class II Miller's recession. 10

5. Describe in detail Local Drug Delivery System. 10

6. Write short notes on : 5×3

- (a) Classify Bone graft
- (b) Chemical Plaque Control
- (c) Classify Endo-perio lesion.

*Note : (i) Attempt all questions with diagrams  
wherever necessary.*

*(ii) Use separate copy for **Part-A** and  
**Part-B.***

**Part-A**

1. Describe the structure of periodontal ligament and discuss its functional adaptation of masticatory forces. 10
2. What is trauma from occlusion ? Discuss the role of management of trauma from occlusion in periodontal disease. 10
3. Write short notes on – 5×3
  - (a) Halitosis
  - (b) Periodontal disease and diabetes mellitus
  - (c) Chlorehexidine

**5149(N)**

**[P.T.O.]**

(2)

**Part-B**

1. Define and classify periodontal flaps. Describe step by step procedures of modified Widman flap. Briefly outline the healing following the procedure. 10
2. Define gingivectomy. Write its indications and contra indications. Explain briefly the gingivectomy techniques performed by various means. 10
3. Write short notes on – 5×3
  - (a) Guided tissue regeneration
  - (b) Periimplantitis
  - (c) Osseous grafts.

5149(N)

3. Write short notes on the following :

5×3=15

- (a) Stages of Gingival Inflammation. 5
- (b) Role of Vitamin 'C' in Periodontium. 5
- (c) Oral Malodor 5

**Part - B**

- 1. Classify Gingival Enlargement and discuss in detail Drug Induced-gingival enlargement. 10

- 2. Define Regeneration. Enumerate various regenerative modalities and discuss GUIDED TISSUE REGENERATION. 10

- 3. Write short notes on the following : 5×3
  - (a) Radius of Action 5
  - (b) ENAP 5
  - (c) TETRACYCLINE 5

**(BDS-15)**

*Time : Three Hours ]*

*[ Maximum Marks : 70*

**Note :** Attempt **all** questions. Use separate copy

for Part I and Part II.

**Part - I**

1. Discuss the macroscopic and microscopic features of Gingiva. 10

P.T.O.

2. Define Dental Plaque. Discuss the composition, formation and the role of dental plaque in Periodontal diseases. 10
3. Write notes on : 5×3=15
- (a) Role of Vitamin C on Periodontium.
  - (b) Functions of Periodontal ligament.
  - (c) Role-of Radiographs in Periodontal diagnosis.
3. Write Differences between: 5×3=15
- (a) Suprabony & Infrabony Pocket.
  - (b) Acute periapical & Periodontal Abscess.
  - (c) Universal & Area specific Curette.

#### Part - II

1. Define and classify Periodontal Flaps. Describe step by step procedure of 'Modified Widman Flap' in detail with a note on healing. 10
2. What is Furcation Involvement? Give its classification. How will you manage a case of Grade II furcation involvement of mandibular first molar. 10

5149(N)2

5149(N)3

(2)

3. Write short notes on the following:  $5 \times 3 = 15$
- (a) Anug vs Primary Herpetic Gingivostomatitis
  - (b) Functional Epithelium
  - (c) Plaque maturation.

**Part-B** [Marks: 35]

1. Classify furcation involvement. Discuss the management of Grade-II furcation involvement. 10
2. Discuss the rationale of Phase-I therapy with various steps involve in it. 10
3. Write short notes on the following:  $5 \times 3 = 15$
- (a) Doxycycline
  - (b) Periimplantitis
  - ~~(c)~~ Periodontal Repair vs Periodontal Regeneration.

### PERIODONTICS

(BDS-015)

**Time : 3 Hours**

**Max. Marks : 50**

**Note:** Attempt all questions. Use separate copy for Part I and Part II.

#### Part 'I'

1. Define aggressive periodontitis. Give the details of etiology, clinical features, radiographic findings and management of the conditions. 8
2. Briefly describe :
  - a) Periodontal abcess 4
  - b) Interdental col area 4

(1)

5149/440/2

3. Write short notes on :

- a) Fenestration and dehiscence 3
- b) Stippling on gingiva 3
- c) Trauma from occlusion 3

Part - II

1. Describe function involvement, types and management of furcation defects depending upon the classification.

8

2. Describe the factors on which prognosis of a tooth/teeth depend.

8

3. Write short notes on :

- a) Gingival Pigmentation 3
- b) Ultrasonic scaling 3
- c) Post operative instruction to patient with periodontal surgery 3

I and Part II.

**Part - 'I'**

1. What is Muco-gingival surgery? What are the objectives of Muco-gingival surgery. Describe modified

**P.T.O.**

Widman flop.

8

3. Write notes on :

2. Write short notes on :

(i) Functions of periodontal ligament.

4

(i) Different brushing technique

3

(ii) Pathogenesis of periodontal pocket formation.

4

(ii) Gingival pocket

3

(iii) Halitosis

3

3. Describe following terms :

(i) Interdental Cleaning aids.

3

(ii) CPITN-Index

3

(iii) A.N.U.G.

3

Part 'II'

1. Define Dental Plaque. Explain mechanism of formation and composition of Dental Plaque

8

2. What are the Causes of gingival recession? Classify gingival recession and describe treatment methods.

PERIODONTICS

Paper-V  
(BDS-015)

*Time : Three Hours ]*

*[ Maximum Marks : 50*

**Note:** Attempt all questions. Use separate copy for Part I and part II.

**PART-I**

- Q.1 Define prognosis and explain its importance in relation to periodontal treatment plan. 8
- Q.2 Define Periodontal diseases. Explain various classification of periodontal diseases. 8

- Q.3 Write short notes on
- (i) Gingival bleeding. 3
  - (ii) Calculus 3
  - (iii) Purposes of tooth brushing. 3

**PART-II**

- Q.1 Explain clinical features, etiology, and treatment of ANUG 8
- Q.2 Explain indication, contra indications and procedure of modified widman flop. 8
- Q.6 Write short notes on
- (i) Periodontal checkup. 3
  - (ii) Interdental plaque central. 3
  - (iii) Functional adaptation of periodontium. 3

**Paper V**

**PERIODONTICS**

**(BDS-015)**

*Time : Three Hours] [Maximum Marks : 50*

*Note : Attempt all questions.*

*Part I*

1. (a) How will you manage a case of gingival bleeding ?  
(b) Why recurrences occur in such cases ?  
Write remedies for same. 8
  
2. (a) What is the difference between suprabony and infrabony pockets ?  
(b) Give steps of full thickness flap surgery. 8

(2)

3. Write short notes on the following :  $3 \times 3 = 9$
- (a) Junctional epithelium
  - (b) Chemical plaque inhibitors
  - (c) Crevicular fluid.

*Part II*

4. Define Gingivectomy. Describe indications, contraindications, objectives and step-by step procedure of gingivectomy. Also briefly discuss the nature of healing following this procedure. 8
5. What is Occlusal Equilibration ? How will you do it in your patients ? 8
6. Write short notes on the following :  $3 \times 3 = 9$
- (a) Periodontal splints
  - (b) Epilithial attachment
  - (c) Halitosis.

PERIODONTICS

(BDS-015)

*Time : Three Hours]*

*[Maximum Marks : 50*

*Note : Attempt all questions.*

*Part A*

1. Define periodontal pockets. Describe classification, pathogenesis and root surface changes in periodontal pockets.  $8\frac{1}{2}$
2. Define prognosis. What will you consider while evaluating the prognosis of periodontally involved teeth.  $8\frac{1}{2}$
3. Write short notes on the following :
  - (i) Computerized periodontal probe 4
  - (ii) Clinical significance of crevicular fluid. 4

(2)

*Part B*

4. Define mucogingival surgery. Write about the indications and procedures for Frenectomy.  $8\frac{1}{2}$
5. Explain Osseous craters. What are the procedures employed in eliminating Osseous craters ?  $8\frac{1}{2}$
6. Write short notes on the following :
  - (i) Intrasulcular drug delivery 4
  - (ii) Periodontal splints. 4

Paper V

PERIODONTICS

(BDS-015)

Time : Three Hours]

[Maximum Marks : 50

Note : Attempt all questions.

Part A

1. Define and classify plaque. Describe the plaque host interactions in juvenile periodontitis.  $8\frac{1}{2}$
2. Discuss the clinical features, histopathology and differential diagnosis of acute herpetic gingivostomatitis.  $8\frac{1}{2}$
3. Write short notes on the following :
  - (a) Diabetes and periodontium 4
  - (b) Composition and uses of gum paint. 4

(α)

Part B

4. What is furcation defect ? Describe the types and treatment procedures in the management of defect. 8½
5. Define periodontal abscess. Describe its etiology and treatment procedures. 8½
6. Write short notes on the following :
  - (a) Failures in periodontal therapy 4
  - (b) Fate of free gingival autograft. 4

Paper V

PERIODONTICS

(BDS-015)

Time : Three Hours

Maximum Marks : 50

Note : (i) Attempt all questions.

(ii) All questions carry equal marks.

Part I

- (a) Discuss role of trauma as an aetiological factor in periodontal disease.
- (b) How will you relieve trauma in treating a case ?

8

(2)

2. (a) How will you distinguish between healthy and diseased gingiva ?
- (b) Describe steps of subgingival curettage. 8
3. (a) What are the common causes of recurrence of periodontal disease after therapy ?
- (b) Discuss maintenance therapy in periodontal management. 9

*Part II*

4. (a) What are the common causes of gingival enlargements ?
- (b) How will you manage a case of pregnancy gingivitis ? 8

5. (a) What are the contra-indications for gingivectomy ?
- (b) Describe steps of gingivectomy procedure including post operative follow up. 8

5149

(3)

6. Write on .
- (a) Periodontal packs
- (b) Lamina dura
- (c) Periodontal splints. 9
